Directorate Media

Unit I.4 Media Convergence and Social Media

CALL FOR PROPOSALS CNECT/2020/2971265

Preparatory Action

MEDIA LITERACY FOR ALL (2020)

1. INTRODUCTION – BACKGROUND

The Preparatory Action Media Literacy for All (2018-20) responds to the societal challenge of improving media literacy of citizens of all ages in the Member States of the European Union. This is the last annual call for this Preparatory Action. "Media literacy" is an umbrella expression that includes all technical, cognitive, social, civic and creative capacities that allow citizens to access the media, to have a critical understanding of it and to interact with it. All these capacities enable citizens to participate fully in the economic, social and cultural aspects of society, as well as to play an active role in the democratic processes. "Media" is to be understood in a broad sense, including all kind of media such as television, radio, online and printed press, digital news outlets, search engines and social media platforms.

Media literacy is intrinsic to a healthy democracy. Article 2 of the Treaty on European Union states that the Union is founded on the value of democracy, which by definition requires the participation of well-informed citizens, a competitive, pluralistic and independent media sector providing reliable information, as well as trustworthy social media and search engines as key information suppliers. Media and digital literacy are key competences in a rapidly changing and increasingly complex media landscape. Citizens and in particular young people access news through social media and other online platforms, in addition to traditional media channels. This access to the new media is becoming more and more interactive, immersive and collaborative as citizens are increasingly becoming content creators and co-creators. Media and digital literacy skills help media users to understand how media contents are produced, shared and disseminated. These skills enable them to think critically and to assess the trustworthiness of information shared through social media, as well as to act responsibly when creating and sharing information.

Ability to think critically is paramount as social media users are exposed to various kinds of disinformation from "clickbait" news to disinformation campaigns propagated by foreign and/or domestic actors that may affect electoral processes and policymaking. Moreover, findability of content online depends on algorithms using one's personal data in ways that may not be understandable or transparent. In a digital information space where online and social media play crucial roles, citizens need to be equipped with the necessary skills to fully understand the mechanisms that shape online interactions amongst users, to be able to take part in the public discourse in a critical and meaningful way. The European Commission Communication's *Tackling online disinformation: a European Approach*¹ elucidates the role that media literacy may play to effectively address the challenges posed by disinformation.

The fact that media users have become content creators on social media platforms has led to wider opportunities for democratic participation but has also shown the need for a responsible use of such opportunities, including the ability to think critically and assess the trustworthiness of information shared through social media. Media literacy skills are therefore crucial in fostering civic behaviour in online environments.

The COVID19 pandemic has induced a mass transition from off-line to on-line professional and personal relations. Schools, universities and work places, hobbies, sports and social events have all found online solutions or proxies to cope with physical confinement measures. Social media and videoconferencing tools have proven their role as key channels of communication and information.

In this new context, the overwhelming role of social media and online applications have further illustrated the need for media and digital literacy for all citizens, irrespective of their age or geographic location.

The works already carried out by projects under the previous calls of the Preparatory Action as well as those deriving from its Pilot Project phase calls of 'Media Literacy for All' program, have created a basis on which to build further media literacy actions, across cultural and linguistic borders is feasible. It is now essential to build bridges across previous experiences and, basing on the work done, to continue develop best practices through new projects under the Media Literacy for All initiative. It is also important to take into account the continuously developing digital landscape, with novel methods and tools requiring advanced media and digital literacy skills, such as the use of VR, AR or immersive technologies, or the increasing roles of algorithms and Artificial Intelligence on which much of modern communication is based.

¹ Communication on Tackling online disinformation: a European Approach COM(2018)236final of 26.4.2018

Legal Basis

Preparatory action within the meaning of Article 58(2)(b) of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1).

The annual work programme was adopted under Commission Decision **C/2020/2259** of 20/04/2020.

2. OBJECTIVE(S) – THEME(S) – PRIORITIES

2.1. General objectives

The general objectives of this Call are to a) increase the level of media literacy in Europe; b) to assess the scalability, sustainability and adaptability across linguistic, state or cultural borders of the actions developed through the earlier Calls of the Preparatory Action Media Literacy for All; and c) to pursue further methodological innovation and collaboration across media literacy communities within the European Union.

Media literacy practitioners should develop innovative strategies to inform citizens of the issues arising from disinformation and to promote a responsible use of communication channels offered by social media. To achieve this goal, the EU encourages effective cooperation among educational institutions, civil society organisations, media, independent fact-checkers, media literacy organisations and online platforms to provide educational and training materials to school teachers and educators in out-of-school contexts, following the “train the trainers” approach. This is expressly mentioned in the section '3.3.Fostering education and media literacy' (p.13) of the EC's '*Communication on Tackling online disinformation*'². The outcome of this cooperation should be that citizens of all ages can become more familiar with the online world, acquire a better perception of trustworthiness of online information, learn to use tools to tackle disinformation and to adopt a responsible online behaviour that do not cause harm to other users and to society.

The proposed projects are encouraged to exploit the concrete results from the previous projects funded through this preparatory action and identify possibilities for scaled up, sustainable and cross-border projects, with a potential for increase in impact on intended audiences or target groups. The proposed projects should prove their ability to draw lessons from existing best practices while increasing their reach across borders, cultures and linguistic areas. The aim is to encourage projects with a wide geographical coverage, with a particular focus on demographic segments of the populations and/or on geographic or social environments with lower level of media literacy skills.

² <https://ec.europa.eu/digital-single-market/en/news/communication-tackling-online-disinformation-european-approach>

2.2. *Specific objectives*

In view of the challenges detailed above, this Call aims at promoting media literacy education by fostering innovative practices and the development of appropriate educational materials and/or services, with a focus on “training the trainers” and an aim to:

- Identify and catalogue techniques commonly used by malicious actors to create, distribute and amplify online disinformation, including the newest forms of manipulation of communication technologies;
- Catalogue and design/repurpose for wider sharing relevant educational materials in collaboration, where appropriate, with civil society and media organisations, online platforms, fact-checkers and/or academic researchers with a specific expertise in communication sciences, psychology, sociology, cognitive sciences or other relevant academic fields;
- Develop tools based on innovative pedagogic approaches, including gaming, creative uses of videoconferencing and other remote learning methodologies, to be used by trained teachers and educators for media literacy training;
- Develop educational modules targeted at different age, linguistic and/or cultural groups, with a particular focus on the most vulnerable segments of the population, to be used by trained teachers and educators;
- Design and deliver appropriate, replicable trainings/training materials to school teachers and/or educators active in out-of-school contexts including by innovative means such as those developed in the third bullet point above;
- Develop 1-2 use-cases on sharing of best practices among trainers of targeted communities;
- Contribute to fostering a media literacy ecosystem based on shared best practices across linguistic and cultural borders, including through the creation of, and/or collaboration with, open educational repositories.

2.3 *Description of the activities to be funded:*

Types of activities eligible under this call for proposals are specified in section 6.2. 'Eligible activities'.

The proposals should demonstrate how the tools and activities proposed may directly or indirectly benefit the target group of citizens of all ages lacking media literacy skills and in particular the skills needed to critically evaluate content accessed via social media.

Proposals should contain a risk analysis regarding implementation including details about how the risks identified would be addressed.

Proposals should also provide an assessment of, and a plan for, the sustainability of the action(s) after the end of the project.

Proposals of consortia of legal entities from more than 3 different Member States will be prioritized in the selection process.

Proposals should foresee a mid-term report and a final report.

3. TIMETABLE

The indicative schedule for the different steps and stages of the selection procedure are as follows:

	Steps	Date and time or indicative period
(a)	Publication of the call	<i>22 June 2020</i>
(b)	Deadline for submitting applications	<i>30/09/2020-24:00 CET</i>
(c)	Evaluation period	<i>Q4 2020/ Q1 2021</i>
(d)	Information to applicants	<i>Q1 2021</i>
(e)	Signature of grant agreement(s)	<i>Q1 2021</i>
(f)	Start date of the project	<i>Latest by end March 2021</i>

The proposed maximum duration of the project is 12 months.

4. BUDGET AVAILABLE

The total budget earmarked for the co-financing of projects under this call for proposals is 500.000 €(five hundred-thousand euros).

Depending on the quality of the proposals, the Commission expects to fund of 2 - 5 projects.

The EU co-financing is limited to **a maximum co-funding rate of 60% of the total eligible costs.**

The Commission reserves the right not to distribute all the funds available.

5. ADMISSIBILITY REQUIREMENTS

In order to be admissible, applications must be:

- sent no later than the deadline for submitting applications referred to in section 3;
- submitted in writing and in electronic form (pdf) (see section 14), using the application form available at
<https://ec.europa.eu/digital-single-market/news-redirect/639853>
or <https://ec.europa.eu/digital-single-market/news-redirect/679532>
- drafted in one of the EU official languages³.

³ In order to speed the evaluation process and the award of funds, proposals must be drafted preferably in English.

Failure to comply with those requirements will lead to rejection of the application.

6. ELIGIBILITY CRITERIA

6.1. Eligible applicants

The call is open to:

- A grouping of entities (consortia).

Proposals may be submitted by any of the following applicants or combinations of:

- non-profit organisation (private or public);
- public authorities (national, regional, local);
- international organisations;
- universities;
- educational institutions;
- research centres,
- profit making entities, e.g. media organisations.

Natural persons are not eligible.

General notice for UK applicants: In conformity with the EU-UK Withdrawal Agreement⁴, the UK and persons or entities established in the UK continue to be eligible to receive Union funds under actions carried out in direct, indirect or shared management, which implement Union programmes and activities committed under the MFF 2014-2020 until the closure of those Union programmes and activities. When restrictions apply, these will be clearly specified in the call for proposals.

Affiliated entities

Entities affiliated⁵ to the applicants are not eligible to receive funding under this Call for proposals. They may take part in the action as affiliated entities at their own costs only.

Country of establishment

Only applications from legal entities established in the following countries are eligible:

- EU Member States;

Consortium requirements

- In order to be eligible, a proposal must be submitted by a consortium composed of legal entities from at least 3 different Member States taking the geographical balance into consideration. This preparatory action aims at supporting sustainable cross-border co-operation and actions.

⁴ Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community

⁵ In accordance with Article 187 FR, entities that satisfy the eligibility criteria and that do not fall within one of the situations referred to in Articles 136(1) and 141(1) FR and that have a link with the applicant, in particular a legal or capital link, which is neither limited to the action nor established for the sole purpose of its implementation, will be considered as entities affiliated to the applicant.

Supporting documents

In order to assess the applicants' eligibility, the following supporting documents are requested (*refer to "Checklist" at the end of the Grant application form for format and support*):

Examples of supporting documents:

- **private entity:** extract from the official journal, copy of articles of association, extract of trade or association register, certificate of liability to VAT (if, as in certain countries, the trade register number and VAT number are identical, only one of these documents is required);
- **public entity:** copy of the resolution, decision or other official document establishing the public-law entity ;
- **entities without legal personality:** documents providing evidence that their representative(s) have the capacity to undertake legal obligations on their behalf.

6.2. Eligible activities

The actions proposed should have clearly defined objectives to advance/target specific areas/goals within the field of media literacy. They should target citizens of all ages and propose an adequate mixture of tools and activities to achieve those objectives.

The following types of activities are eligible under this call for proposals:

- (1) Creation of multilingual on-line material including fact-checked news repositories and interactive educational tools to improve the capacities of citizens to acquire a critical understanding of and ability to interact with the media and social media. Such actions should involve cooperation with relevant community organisations such as libraries, media outlets, online platforms, media literacy organisations, fact-checking and/or academic bodies with specific expertise on disinformation;
- (2) Development of applications, tools and innovative methodologies to raise awareness about the danger of receiving and propagating disinformation, promote the use of fact-checking services and the reporting by social media users of possible instances of disinformation;
- (3) Promotion of social media campaigns and other relevant activities aimed at helping citizens to interact with digital media in a critically evaluative way (e.g. citizens' participation in debunking, etc.), deconstruct media communication and distinguish information from propaganda;
- (4) Identification of best practice and efficient dissemination of the material created by the project. This can be achieved through the building of networks of practitioners who can act as multipliers of best practice;
- (5) Community-led activities to tailor and make accessible the above-mentioned tools and materials to minorities, low-skilled people, digital immigrants (50+), immigrants or refugees, or people at risk of being socially marginalised.
- (6) Training activities focused on media literacy practices, tools or materials addressed to trainers, educators and teachers, including sharing of best practices across linguistic, state and cultural borders.

6.3 Implementation period

The suggested start date of the project is latest by end March 2021

The proposed maximum duration of the project is 12 months.

7. EXCLUSION CRITERIA

7.1. Exclusion

The authorising officer shall exclude an applicant from participating in call for proposals procedures where:

- (a) the applicant is bankrupt, subject to insolvency or winding-up procedures, its assets are being administered by a liquidator or by a court, it is in an arrangement with creditors, its business activities are suspended, or it is in any analogous situation arising from a similar procedure provided for under EU or national laws or regulations;
- (b) it has been established by a final judgment or a final administrative decision that the applicant is in breach of its obligations relating to the payment of taxes or social security contributions in accordance with the applicable law;
- (c) it has been established by a final judgment or a final administrative decision that the applicant is guilty of grave professional misconduct by having violated applicable laws or regulations or ethical standards of the profession to which the applicant belongs, or by having engaged in any wrongful intent or gross negligence, including, in particular, any of the following:
 - (i) fraudulently or negligently misrepresenting information required for the verification of the absence of grounds for exclusion or the fulfilment of eligibility or selection criteria or in the performance of a contract, a grant agreement or a grant decision;
 - (ii) entering into agreement with other applicants with the aim of distorting competition;
 - (iii) violating intellectual property rights;
 - (iv) attempting to influence the decision-making process of the Commission during the award procedure;
 - (v) attempting to obtain confidential information that may confer upon it undue advantages in the award procedure;
- (d) it has been established by a final judgment that the applicant is guilty of any of the following:
 - (i) fraud, within the meaning of Article 3 of Directive (EU) 2017/1371 of the European Parliament and of the Council and Article 1 of the Convention on the protection of the European Communities' financial interests, drawn up by the Council Act of 26 July 1995;
 - (ii) corruption, as defined in Article 4(2) of Directive (EU) 2017/1371 or Article 3 of the Convention on the fight against corruption involving officials of the European Communities or officials of Member States of the European Union, drawn up by the Council Act of 26 May 1997, or conduct referred to in Article 2(1) of Council Framework Decision 2003/568/JHA, or corruption as defined in the applicable law;
 - (iii) conduct related to a criminal organisation, as referred to in Article 2 of Council Framework Decision 2008/841/JHA;
 - (iv) money laundering or terrorist financing within the meaning of Article 1(3), (4) and (5) of Directive (EU) 2015/849 of the European Parliament and of the Council;

- (v) terrorist offences or offences linked to terrorist activities, as defined in Articles 1 and 3 of Council Framework Decision 2002/475/JHA, respectively, or inciting, aiding, abetting or attempting to commit such offences, as referred to in Article 4 of that Decision;
 - (vi) child labour or other offences concerning trafficking in human beings as referred to in Article 2 of Directive 2011/36/EU of the European Parliament and of the Council;
- (e) the applicant has shown significant deficiencies in complying with main obligations in the performance of a contract, a grant agreement or a grant decision financed by the Union's budget, which has led to its early termination or to the application of liquidated damages or other contractual penalties, or which has been discovered following checks, audits or investigations by an authorising officer, OLAF or the Court of Auditors;
 - (f) it has been established by a final judgment or final administrative decision that the applicant has committed an irregularity within the meaning of Article 1(2) of Council Regulation (EC, Euratom) No 2988/95;
 - (g) It has been established by a final judgement or final administrative decision that the applicant has created an entity in a different jurisdiction with the intent to circumvent fiscal, social or any other legal obligations of mandatory application in the jurisdiction of its registered office, central administration or principal place of business;
 - (h) it has been established by a final judgement or final administrative decision that an entity has been created with the intent referred to in point (g);
 - (i) for the situations referred to in points (c) to (h) above, the applicant is subject to:
 - (i) facts established in the context of audits or investigations carried out by European Public Prosecutor's Office after its establishment, the Court of Auditors, the European Anti-Fraud Office or the internal auditor, or any other check, audit or control performed under the responsibility of an authorising officer of an EU institution, of a European office or of an EU agency or body;
 - (ii) non-final judgments or non-final administrative decisions which may include disciplinary measures taken by the competent supervisory body responsible for the verification of the application of standards of professional ethics;
 - (iii) facts referred to in decisions of persons or entities being entrusted with EU budget implementation tasks;
 - (iv) information transmitted by Member States implementing Union funds;
 - (v) decisions of the Commission relating to the infringement of Union competition law or of a national competent authority relating to the infringement of Union or national competition law; or
 - (vi) decisions of exclusion by an authorising officer of an EU institution, of a European office or of an EU agency or body.

7.2. Remedial measures

If an applicant declares one of the situations of exclusion listed above (see section 7.1), it must indicate the measures it has taken to remedy the exclusion situation, thus demonstrating its reliability. This may include e.g. technical, organisational and personnel measures to correct the conduct and prevent further occurrence, compensation of damage or payment of fines or of any taxes or social security contributions. The

relevant documentary evidence which illustrates the remedial measures taken must be provided in annex to the declaration. This does not apply for situations referred in point (d) of section 7.1.

7.3. Rejection from the call for proposals

The authorising officer shall not award a grant to an applicant who:

- (a) is in an exclusion situation established in accordance with section 7.1; or
- (b) has misrepresented the information required as a condition for participating in the procedure or has failed to supply that information; or
- (c) was previously involved in the preparation of documents used in the award procedure where this entails a breach of the principle of equal treatment, including distortion of competition, that cannot be remedied otherwise.

Administrative sanctions (exclusion) may be imposed on applicants if any of the declarations or information provided as a condition for participating in this procedure prove to be false.

7.4. Supporting documents

Applicants must provide an original “blue ink” signed⁶ declaration on their honour certifying that they are not in one of the situations referred to in Articles 136(1) and 141 FR, by filling in the relevant form attached to the application form accompanying the call for proposals and available at

<https://ec.europa.eu/digital-single-market/news-redirect/639853>

or <https://ec.europa.eu/digital-single-market/news-redirect/679532>

This obligation may be fulfilled in one of the following ways:

- (i) the coordinator of a consortium signs a declaration on behalf of all applicants; OR
- (ii) each applicant in the consortium signs a declaration in its name; OR
- (iii) each applicant in the consortium sign a separate declaration in their own name.

8. SELECTION CRITERIA

8.1. Financial capacity

Applicants must have stable and sufficient sources of funding to maintain their activity throughout the duration of the grant and to participate in its funding.

The verification of the financial capacity shall not apply to public bodies, including Member States organisations and to International Organisations.

In the event of an application grouping several applicants (consortium), the below thresholds apply to each applicant.

The financial capacity of a single applicant or coordinator will always be assessed based on documents to be provided under point 8.1 b).

⁶ A hand-written “blue ink” signature is mandatory (electronic signature conform to eIDAS regulation will however be accepted) While scans suffice before the deadline of proposals, the original blue ink versions must be provided before any grant agreement can be signed by the Commission.

The individual applicants' financial capacity will be assessed on the basis of the following supporting documents to be submitted with the application:

- a) Low value grants (\leq EUR 60 000):
 - a declaration on their honour.
- b) Grants $>$ EUR 60 000:
 - a declaration on their honour

AND

- the profit and loss account as well as the balance sheet for the last 2 financial years for which the accounts were closed;
- for newly created entities: the business plan might replace the above documents;
- the table with the financial figures provided for in Annex to the application form (BS and P&L Financial Capacity Check table), filled in with the relevant statutory accounting figures.

On the basis of the documents submitted, if the Authorised Representative Officer of the Commission considers that financial capacity is **weak**, s/he may:

- request further information;
- decide not to give pre-financing;
- decide to give pre-financing paid in instalments;
- decide to give pre-financing covered by a bank guarantee (see section 11.7.2 below);
- where applicable, require the joint and several financial liability of all the co-beneficiaries.

If the Authorised Representative Officer of the Commission considers that the financial capacity is **insufficient** s/he will reject the application.

8.2. Operational capacity

Applicants must have the professional competencies as well as appropriate qualifications necessary to complete the proposed action. The applicants must demonstrate the ability to attract staff members with proven expertise in the media literacy sector and in the media sector.

In this respect, applicants have to submit a declaration on their honour, and the following supporting documents:

- curriculum vitae or description of the profile of the people primarily responsible for managing and implementing the operation (accompanied where appropriate, like in the field of research and education, by a list of relevant publications);
- the organisation's activity reports;
- an exhaustive lists of previous projects and activities performed and connected to the policy field of a given call or to the actions to be carried out;

In the event of an application grouping several applicants (consortium), the above requirements shall apply to the combined capacity of all members of the consortium. Combined capacity means that individually, each member of the consortium should comply with the criteria corresponding to its task in the project.

9. AWARD CRITERIA

Eligible applications/projects will be assessed on the basis of the following criteria:

<u>Award criterion</u>	<u>Maximum score</u>	<u>Threshold</u>
(1) the relevance of the project and the contribution of its expected results to the objectives of the call	25	15
(2) the geographical coverage and balance with regard to the number of Member States; the European dimension of the project	15	9
(3) the effectiveness and rationale of the proposed methodology and organisation (including the timetable, risk assessment and monitoring)	15	9
(4) the innovative nature of the action or project, and its expected multiplying effect	10	6
(5) the impact and dissemination as well as the transferability and the sustainability of the expected results	15	9
(6) cost effectiveness of the proposed action, and in particular the relevance and quality of the means of implementation and the resources deployed in relation to the objectives envisaged	20	12
TOTAL	100	60

Minimum score per criterion (threshold): Proposals scoring less than 60% of the maximum score for any award criterion will be considered of insufficient quality and rejected.

Minimum total score (threshold): Proposals with a total score of less than 60 points at the end of the evaluation process will be considered of insufficient quality and rejected.

10. LEGAL COMMITMENTS

In the event of a grant awarded by the Commission, a grant agreement, drawn up in euro and detailing the conditions and level of funding, will be sent to the applicant, as well as the information on the procedure to formalise the agreement of the parties.

Two copies of the original agreement must be signed first by the legal representative⁷ (person authorised to sign the agreement) of the beneficiary and returned to the Commission immediately. The Commission will sign it last.

The applicants understand that submission of a grant application implies acceptance of the general conditions attached to this call for proposals in Annex II to the model grant

⁷ The Commission reserves the right to ask the proof of appointment

agreement. These general conditions bind the beneficiary to whom the grant is awarded and shall constitute an annex to the grant agreement.

11. FINANCIAL PROVISIONS

11.1. Form of the grant

11.1.1 Reimbursement of costs actually incurred⁸

The grant will be defined by applying a maximum co-financing rate of **60 %** to the eligible costs actually incurred and declared by the beneficiary.

For details on eligibility of costs, please refer to section 11.2.

11.2. Eligible costs⁹

Eligible costs shall meet all the following criteria:

- they are incurred by the beneficiary.
- they are incurred during the duration of the action, with the exception of costs relating to final reports and audit certificates;
 - The period of eligibility of costs will start as specified in the grant agreement.
 - If a beneficiary can demonstrate the need to start the action before the agreement is signed, the costs eligibility period may start before that signature. Under no circumstances can the eligibility period start before the date of submission of the grant application.
- they are indicated in the estimated budget of the action;
- they are necessary for the implementation of the action which is the subject of the grant;
- they are identifiable and verifiable, in particular being recorded in the accounting records of the beneficiary and determined according to the applicable accounting standards of the country where the beneficiary is established and according to the usual cost accounting practices of the beneficiary;
- they comply with the requirements of applicable tax and social legislation;
- they are reasonable, justified, and comply with the principle of sound financial management, in particular regarding economy and efficiency.

The beneficiary's internal accounting and auditing procedures must permit direct reconciliation of the costs and revenue declared in respect of the action/project with the corresponding accounting statements and supporting documents.

Eligible costs may be direct or indirect.

11.2.1. Eligible direct costs¹⁰

The eligible direct costs for the action are the costs which:

⁸ See point (i) of Article I.3.2(a) of the model grant agreement

⁹ Article II.19.1 of the Model Grant Agreement

¹⁰ Article II.19.2 of the Model Grant Agreement

with due regard to the conditions of eligibility set out above, are identifiable as specific costs directly linked to the performance of the action and which can therefore be booked to it directly, such as :

- (a) *the costs of personnel working under an employment contract with the beneficiary or an equivalent appointing act and assigned to the action, provided that these costs are in line with the beneficiary's usual policy on remuneration.*

Those costs include actual salaries plus social security contributions and other statutory costs included in the remuneration. They may also comprise additional remunerations, including payments on the basis of supplementary contracts regardless of the nature of those contracts, provided that they are paid in a consistent manner whenever the same kind of work or expertise is required, independently from the source of funding used;

The costs of natural persons working under a contract with the beneficiary other than an employment contract or who are seconded to the beneficiary by a third party against payment may also be included under such personnel costs, provided that the following conditions are fulfilled:

- (i) the person works under conditions similar to those of an employee (in particular regarding the way the work is organised, the tasks that are performed and the premises where they are performed);*
- (ii) the result of the work belongs to the beneficiary (unless exceptionally agreed otherwise); and*
- (iii) the costs are not significantly different from the costs of staff performing similar tasks under an employment contract with the beneficiary;*

The recommended methods for the calculation of direct personnel costs are provided in Appendix.

- (b) *costs for the work of volunteers up to the limit of 50 % of the overall Union and other co-financing of the action - NOT APPLICABLE*
- (c) *costs of travel and related subsistence allowances, provided that these costs are in line with the beneficiary's usual practices on travel;*
- (d) *the depreciation costs of equipment or other assets (new or second-hand) as recorded in the beneficiary's accounting statements, provided that the asset:*
 - (i) is written off in accordance with the international accounting standards and the beneficiary's usual accounting practices; and*
 - (ii) has been purchased in accordance with the rules on implementation contracts laid down in the grant agreement, if the purchase occurred within the implementation period;*

The costs of renting or leasing equipment or other assets are also eligible, provided that these costs do not exceed the depreciation costs of similar equipment or assets and are exclusive of any finance fee;

Only the portion of the equipment's depreciation, rental or lease costs corresponding to the implementation period and the rate of actual use for the purposes of the action may be taken into account when determining the eligible costs. By way of exception, the full cost of purchase of equipment may be eligible under the Special Conditions, if this is justified by the nature of the action and the context of the use of the equipment or assets;

- (e) *costs of consumables and supplies, provided that they:
 - (i) are purchased in accordance with the rules on implementation contracts laid down in the grant agreement; and
 - (ii) are directly assigned to the action;*
- (f) *costs arising directly from requirements imposed by the Agreement (dissemination of information, specific evaluation of the action, audits, translations, reproduction), including the costs of requested financial guarantees, provided that the corresponding services are purchased in accordance with the rules on implementation contracts laid down in the grant agreement;*
- (g) *costs derived from subcontracts, provided that specific conditions on subcontracting as laid down in the grant agreement are met¹¹;*
- (h) *costs of financial support to third parties, provided that the conditions laid down in the grant agreement are met¹²; (see section 11.8.d)*
- (i) *duties, taxes and charges paid by the beneficiary, notably value added tax (VAT), provided that they are included in eligible direct costs, and unless specified otherwise in the grant agreement.*

11.2.2. Eligible indirect costs (overheads)¹³

Indirect costs are costs that are not directly linked to the action implementation and therefore cannot be attributed directly to it.

A flat-rate amount of maximum 7% of the total eligible direct costs of the action excluding direct costs of subcontracting, is eligible as indirect costs, representing the beneficiary's general administrative costs which can be regarded as chargeable to the action/project

Indirect costs may not include costs entered under another budget heading.

Applicants' attention is drawn to the fact that if they are receiving an operating grant financed by the EU or Euratom budget, they may not declare indirect costs for the period(s) covered by the operating grant, unless they can demonstrate that the operating grant does not cover any costs of the action.

In order to demonstrate this, in principle, the beneficiary should:

- a. use *analytical cost accounting that allows to separate all costs (including overheads)* attributable to the operating grant and the action grant. For that

¹¹ Article II.11 of the Model Grant Agreement

¹² Article II.12 of the Model Grant Agreement

¹³ Article II.12 of the Model Grant Agreement

purpose the beneficiary should use *reliable accounting codes and allocation keys* ensuring that *the allocation* of the costs is done in a *fair, objective and realistic way*.

b. *record separately*:

- all costs incurred for the operating grants (i.e. personnel, general running costs and other operating costs linked to the part of its usual annual activities), and
- all costs incurred for the action grants (including the actual indirect costs linked to the action)

If the operating grant covers the entire usual annual activity and budget of the beneficiary, the latter is not entitled to receive any indirect costs under the action grant.

11.3. Ineligible costs¹⁴

The following items are not considered as eligible costs:

- a) return on capital and dividends paid by a beneficiary;
- b) debt and debt service charges;
- c) provisions for losses or debts;
- d) interest owed;
- e) doubtful debts;
- f) exchange losses;
- g) costs of transfers from the Commission charged by the bank of a beneficiary;
- h) costs declared by the beneficiary under another action receiving a grant financed from the Union budget. Such grants include grants awarded by a Member State and financed from the Union budget and grants awarded by bodies other than the Commission for the purpose of implementing the Union budget. In particular, beneficiaries receiving an operating grant financed by the EU or Euratom budget cannot declare indirect costs for the period(s) covered by the operating grant, unless they can demonstrate that the operating grant does not cover any costs of the action.
- i) contributions in kind from third parties;
- j) excessive or reckless expenditure;
- k) deductible VAT.

11.4. Eligible costs that may be covered by the single lump sum

NOT APPLICABLE

11.5. Balanced budget

The estimated budget of the action must be attached to the application form. It must have revenue and expenditure in balance.

The budget must be drawn up in euros.

Applicants for whom costs will not be incurred in euros should use the exchange rate published in the Official Journal of the European Union

The applicant must ensure that the resources which are necessary to carry out the action are not entirely provided by the EU grant.

¹⁴ Article II.19.4 of the Model Grant Agreement

Co-financing of the action may take the form of:

- the beneficiary's own resources,
- income generated by the action,
- financial contributions from third parties.

11.6. Calculation of the final grant amount¹⁵

The final amount of the grant is calculated by the Commission at the time of the payment of the balance. The calculation involves the following steps:

Step 1 — Application of the reimbursement rate to the eligible costs

The amount under step 1 is obtained by applying the reimbursement rate specified in section 11.1.1 to the eligible costs actually incurred and accepted by the Commission.

Step 2 — Limit to the maximum amount of the grant

The total amount paid to the beneficiaries by the Commission may in no circumstances exceed the maximum amount of the grant as indicated in the grant agreement. If the amount obtained following Step 1 is higher than this maximum amount, the final amount of the grant is limited to the latter.

Step 3 — Reduction due to the no-profit rule

‘Profit’ means the surplus of receipts over the total eligible costs of the action, where receipts are the amount obtained following Steps 1 and 2 plus the revenue generated by the action for beneficiaries [and affiliated entities] other than non-profit organisations.

In-kind and financial contributions by third parties are not considered receipts.

The total eligible costs of the action are the consolidated total eligible costs approved by the Commission. The revenue generated by the action is the consolidated revenue established, generated or confirmed for beneficiaries other than non-profit organisations on the date on which the request for payment of the balance is drawn up.

If there is a profit, it will be deducted in proportion to the final rate of reimbursement of the actual eligible costs of the action approved by the Commission.

Step 4 — Reduction due to improper implementation or breach of other obligations

The Commission may reduce the maximum amount of the grant if the action has not been implemented properly (i.e. if it has not been implemented or has been implemented poorly, partially or late), or if another obligation under the Agreement has been breached.

The amount of the reduction will be proportionate to the degree to which the action has been implemented improperly or to the seriousness of the breach.

¹⁵ Article II.25 of the Model Grant Agreement

11.7. Reporting and payment arrangements

11.7.1 Payment arrangements

The beneficiary may request the following payments provided that the conditions of the grant agreement are fulfilled (e.g. payment deadlines, ceilings, etc.). The payment requests shall be accompanied by the documents provided below and detailed in the grant agreement:

Payment request	Accompanying documents
A pre-financing payment corresponding to 50% of the maximum grant amount	financial guarantee (see section 11.7.2) ¹⁶
Payment of the balance The Commission will establish the amount of this payment on the basis of the calculation of the final grant amount (see section 11.6 above). If the total of earlier payments is higher than the final grant amount, the beneficiary will be required to reimburse the amount paid in excess by the Commission through a recovery order.	(a) final technical report (b) final financial statement (c) summary financial statement aggregating the financial statements already submitted previously and indicating the receipts (d) a certificate on the financial statements and underlying accounts ¹⁷

Please note that the consortium will deliver an interim report not linked to a payment at mid-term of the project. The purpose of this report mentioned in Section 2.3 of the Objective is to inform the Commission's services about the progress of the project.

In case of a weak financial capacity, section 8.1 above applies.

11.7.2 Pre-financing guarantee

A pre-financing guarantee for up to the same amount as the pre-financing may be requested in order to limit the financial risks linked to the pre-financing payment.

The financial guarantee, in euro, shall be provided by an approved bank or financial institution established in one of the EU Member States. When the beneficiary is established in a third country, the Commission may agree that a bank or financial institution established in that third country may provide the guarantee if it considers that the bank or financial institution offers equivalent security and characteristics as those offered by a bank or financial institution established in a Member State. Amounts blocked in bank accounts shall not be accepted as financial guarantees.

The guarantee may be replaced by:

- a joint and several guarantee by a third party or,
- a joint guarantee of the beneficiaries of an action who are parties to the same grant agreement.

¹⁶ The decision on the request of a financial guarantee will be taken by the Authorised Representative Officer of the Commission in line with the financial capacity assessment (section 8.1)

¹⁷ The decision on the request for certificates on the financial statements and the threshold will be taken by the Authorised Representative Officer of the Commission during the evaluation of the proposal.

The guarantee shall be released as the pre-financing is gradually cleared against interim payments or the payment of the balance, in accordance with the conditions laid down in the grant agreement.

As an alternative to requesting a guarantee on pre-financing, the Commission may decide to split the payment of pre-financing into several instalments.

11.8. Other financial conditions

a) Non-cumulative award

An action may only receive one grant from the EU budget.

Under no circumstances shall the same costs be financed twice by the Union budget. To ensure this, applicants shall indicate in the grant application the sources and amounts of Union funding received or applied for the same action or part of the action or for its (the applicant's) functioning during the same financial year as well as any other funding received or applied for the same action.

b) Non-retroactivity

No grant may be awarded retrospectively for actions already completed.

A grant may be awarded for an action, which has already begun only where the applicant can demonstrate in the grant application the need to start the action before the grant agreement is signed.

In such cases, costs eligible for financing may not have been incurred prior to the date of submission of the grant application.

c) Implementation contracts/subcontracting¹⁸

Where the implementation of the action requires the award of procurement contracts (implementation contracts), the beneficiary may award the contract in accordance with its usual purchasing practices provided that the contract is awarded to the tender offering best value for money or the lowest price (as appropriate), avoiding conflicts of interest.

The beneficiary is expected to clearly document the tendering procedure and retain the documentation in the event of an audit.

Entities acting in their capacity as contracting authorities within the meaning of Directive 2014/24/EU¹⁹ or contracting entities within the meaning of Directive 2014/25/EU²⁰ must comply with the applicable national public procurement rules.

Beneficiaries may subcontract tasks forming part of the action. If they do so, they must ensure that, in addition to the above-mentioned conditions of best value for money and absence of conflicts of interests, the following conditions are also complied with:

- a) subcontracting does not cover core tasks of the action;
- b) recourse to subcontracting is justified because of the nature of the action and what is necessary for its implementation;

¹⁸ Articles II.10 and II.11 of the Model Grant Agreement

¹⁹ Directive 2014/24/EU of the European Parliament and of the Council of 26 February 2014 on public procurement and repealing Directive 2004/18/EC (OJ L 94, 28.3.2014, p. 65-242)

²⁰ Directive 2014/25/EU of the European Parliament and of the Council of 26 February 2014 on procurement by entities operating in the water, energy, transport and postal services sectors and repealing Directive 2004/17/EC (OJ L 94, 28.3.2014, p. 243-374)

- c) the estimated costs of the subcontracting are clearly identifiable in the estimated budget;
 - d) any recourse to subcontracting, if not provided for in description of the action, is communicated by the beneficiary and approved by the Commission. The Commission may grant approval:
 - (i) before any recourse to subcontracting, if the beneficiaries requests an amendment
 - (ii) after recourse to subcontracting if the subcontracting:
 - is specifically justified in the interim or final technical report and
 - does not entail changes to the grant agreement which would call into question the decision awarding the grant or be contrary to the equal treatment of applicants;
 - e) the beneficiaries ensure that certain conditions applicable to beneficiaries, enumerated in the grant agreement (e.g. visibility, confidentiality, etc.), are also applicable to the subcontractors.
- d) **Financial support to third parties** ²¹
- The applications may not envisage provision of financial support to third parties.

12. PUBLICITY

12.1. By the beneficiaries

Beneficiaries must clearly acknowledge the European Union's contribution in all publications or in conjunction with activities for which the grant is used.

In this respect, beneficiaries are required to give prominence to the name and emblem of the European Commission on all their publications, posters, programmes and other products realised under the co-financed project.

To do this they must use the text, the emblem and the disclaimer available at https://ec.europa.eu/info/resources-partners/european-commission-visual-identity_en

If this requirement is not fully complied with, the beneficiary's grant may be reduced in accordance with the provisions of the grant agreement.

12.2. By the Commission

With the exception of scholarships paid to natural persons and other direct support paid to natural persons in most need, all information relating to grants awarded in the course of a financial year shall be published on an internet site of the European Union institutions no later than the 30 June of the year following the financial year in which the grants were awarded.

The Commission will publish the following information:

- name of the beneficiary;
- address of the beneficiary when the latter is a legal person, region when the beneficiary is a natural person, as defined on NUTS 2 level²² if he/she is domiciled within the EU or equivalent if domiciled outside the EU;

²¹ Article II.12 of the Model Grant Agreement

- subject of the grant;
- amount awarded.

Upon a reasoned and duly substantiated request by the beneficiary, the publication shall be waived if such disclosure risks threatening the rights and freedoms of individuals concerned as protected by the Charter of Fundamental Rights of the European Union or harm the commercial interests of the beneficiaries.

13. PROCESSING OF PERSONAL DATA

If processing your reply to the call for proposals involves the recording and processing of personal data (such as your name, address and CV), such data will be processed pursuant to Regulation (EU) 2018/1725 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data, and repealing Regulation (EC) No 45/2001 and Decision No 1247/2002/EC.

Unless indicated otherwise, any personal data requested are required to evaluate your application in accordance with the call for proposals and will be processed solely for that purpose by Mr Paolo Cesarini, Head of Unit, Unit I.4, Directorate-General for Communications Networks, Content and Technology.

Details concerning the processing of your personal data are available on the privacy statement at: https://ec.europa.eu/info/data-protection-public-procurement-procedures_en.

Your personal data may be registered in the Early Detection and Exclusion System (EDES) if you are in one of the situations mentioned in Article 136 of the Financial Regulation. For more information, see the Privacy Statement for the database of the Early Detection and Exclusion System (EDES) at:

http://ec.europa.eu/budget/library/explained/management/protecting/privacy_statement_e_des_en.pdf

14. PROCEDURE FOR THE SUBMISSION OF PROPOSALS

Proposals must be submitted by the deadline set out under section 3.

No modification to the application is allowed once the deadline for submission has elapsed. However, if there is a need to clarify certain aspects or to correct clerical mistakes, the Commission may contact the applicant during the evaluation process.

Applicants will be informed in writing about the results of the selection process.

The mandatory Grant Application Form and other mandatory template documents to be completed are available at

<https://ec.europa.eu/digital-single-market/news-redirect/639853>

or <https://ec.europa.eu/digital-single-market/news-redirect/679532>

²² Commission Regulation (EC) No 105/2007 of 1 February 2007 amending the annexes to Regulation (EC) No 1059/2003 of the European Parliament and of the Council on the establishment of a common classification of territorial units for statistics (NUTS), OJ L39, 10.2.2007, p.1.

Applications must be submitted in the correct form, duly completed and dated. The application must be submitted in **one original paper copy** (no additional paper copies required) signed by the person authorised to enter into legally binding commitments on behalf of the applicant organisation

Where applicable, additional information considered necessary by the applicant may be included as an annex (brochures, etc.), but assessment will be based on information included in the application form (therefore please limit the number and size of additional documents and attachments).

An electronic version (pdf) of the application form and all documents on USB stick must be provided together with the printed original requested. The electronic version (pdf) of the Grant Application Form must not be a scan of the paper version but must be searchable.

Applications **must be sent** to the following address:

European Commission

Directorate-General for Communications Networks, Content & Technology

Directorate Media Policy – Media Convergence and Social Media (Unit I.4.)

For the attention of the Head of Unit (BU25 05/094)

B-1049 Brussels

Belgium

- **by post**²³ (evidence will be constituted by the postmark), or
- **by courier service** (evidence will be constituted by the date of deposit slip), or
- **by hand-delivery**. It is compulsory for security reasons to address it to *the central mail department of the Commission* as follows:

European Commission

Directorate-General for Communications Networks, Content & Technology

Unit <insert unit number> – <insert unit name>

Avenue du Bourget, 1

B-1140 BRUSSELS (Evere),

Belgium

In this case, proof of submission of the proposal will take the form of a receipt signed and dated by the official of the Commission's central mail department who takes delivery of the documents. The department is open from 08.00 to 17.00 on Mondays to Thursdays and from 08.00 to 16.00 on Fridays. It is closed on Saturdays, Sundays and Commission holidays.

In addition to the above,:

- applicants must send an **e-mail** before the deadline set out under section 3 to the following email address: CNECT-MEDIALITERACY-PA@ec.europa.eu **to inform us about your submission on paper.**

Applications sent by fax or by e-mail will not be accepted.

Please refer to the “Checklist” at the end of the Grant Application Form for the summary of documents to provide, format (searchable pdf, pdf scan, excel) and support (Original paper, copy or USB)

²³ Applicants are advised to keep the payment receipt with date and time from the post office in order to be able to prove that the proposal has been sent within the deadline

➤ **Contacts**

- Secretariat of Media literacy for All program, Unit I.4 of DG CONNECT
- Email: CNECT-MEDIALITERACY-PA@ec.europa.eu
- Questions and requests for clarification may be sent to: CNECT-MEDIALITERACY-PA@ec.europa.eu with a reference to the Call's title.
- The Commission is not bound to reply to requests for additional information received less than six working days before the deadline for submitting applications set in section 3.
- The answers will also be published in the FAQs section on:
<https://ec.europa.eu/digital-single-market/news-redirect/639853>
or <https://ec.europa.eu/digital-single-market/news-redirect/679532>

➤ **Annexes:**

- Grant application form and its annexes
 - Checklist of documents to be provided
 - Estimated budget form
 - Legal entity form
 - Bank account form
 - BS and P&L Financial Capacity Check table
- Model Declaration of honour
- Model grant agreement and its annexe II

Authorising Officer by sub-delegation

Directorate I

Appendix
Specific conditions for direct personnel costs

1. Calculation

The ways of calculating eligible direct personnel costs laid down in points (a) and (b) below are recommended and accepted as offering assurance as to the costs declared being actual.

The Commission may accept a different method of calculating personnel costs used by the beneficiary, if it considers that it offers an adequate level of assurance of the costs declared being actual.

a) for persons working exclusively on the action:

{monthly rate for the person

multiplied by

number of actual months worked on the action }

The months declared for these persons may not be declared for any other EU or Euratom grant.

The **monthly rate** is calculated as follows:

{annual personnel costs for the person

divided by 12 }

using the personnel costs for each full financial year covered by the reporting period concerned.

If a financial year is not closed at the end of the reporting period, the beneficiaries must use the monthly rate of the last closed financial year available;

b) for persons working part time on the action

(i) **If the person is assigned to the action at a fixed pro-rata of their working time:**

{monthly rate for the person multiplied by pro-rata assigned to the action

multiplied by

number of actual months worked on the action }

The working time pro-rata declared for these persons may not be declared for any other EU or Euratom grant.

The monthly rate is calculated as above.

(ii) In other cases:

{hourly rate for the person multiplied by number of actual hours worked on the action}

or

{daily rate for the person multiplied by number of actual days worked on the action}

(rounded up or down to the nearest half-day)

The number of actual hours/days declared for a person must be identifiable and verifiable.

The total number of hours/days declared in EU or Euratom grants, for a person for a year, cannot be higher than the annual productive hours/days used for the calculations of the hourly/daily rate. Therefore, the maximum number of hours/days that can be declared for the grant are:

{number of annual productive hours/days for the year (see below)}

minus

total number of hours and days declared by the beneficiary, for that person for that year, for other EU or Euratom grants}.

The '**hourly/daily rate**' is calculated as follows:

{annual personnel costs for the person

divided by

number of individual annual productive hours/days} using the personnel costs and the number of annual productive hours/days for each full financial year covered by the reporting period concerned.

If a financial year is not closed at the end of the reporting period, the beneficiaries must use the hourly/daily rate of the last closed financial year available.

The 'number of individual annual productive hours/days' is the total actual hours/days worked by the person in the year. It may not include holidays and other absences (such as sick leave, maternity leave, special leave, etc). However, it may include overtime and time spent in meetings, trainings and other similar activities.

2. Documentation to support personnel costs declared as actual costs

For **persons working exclusively on the action**, where the direct personnel costs are calculated following **point (a)**, the beneficiaries must keep time records for the number of hours/days declared. The time records must be in writing and approved by the persons working on the action and their supervisors, at least monthly.

For **persons assigned to the action at a fixed pro-rata of their working time**, where the direct personnel costs are calculated following **point (b)(i)**, the beneficiaries must keep time records for the number of hours/days declared. The time records must be in writing and approved by the persons working on the action and their supervisors, at least monthly.

For **persons working part time on the action**, where direct personnel costs are calculated following **point (b)(ii)**, the beneficiaries must keep **time records** for the number of hours/days declared. The time records must be in writing and approved by the persons working on the action and their supervisors, at least monthly.

In the absence of reliable time records of the hours worked on the action, the Commission may accept alternative evidence supporting the number of hours/days declared, if it considers that it offers an adequate level of assurance.
